

ALEX C. DE ALVAREZ, 46, was appointed Vice President — Security, in January 2008.

He joined Apache with an extensive background in corporate and national security, specializing in energy infrastructure security. Shortly after the 9/11 terrorist attacks, Mr. de Alvarez accepted a position as an infrastructure security expert with the U.S. Department of Energy. He was instrumental in setting up the Department of Homeland Security while serving in the White House Homeland Security Transition Planning Office during President George W. Bush's first administration. His highest-ranking appointment was as the director of Energy

Assurance at the U.S. Department of Energy. Prior to the 9/11 attacks, he was director of Security and Safety at Enron Broadband Services. His previous experience includes several years as a clandestine operations officer at the Central Intelligence Agency and as a captain in the United States Marine Corps.

Mr. de Alvarez is a member of Business Executives for National Security and the American Society for Industrial Security's CSO Roundtable. He serves on the board of the Energy Security Council, and on the Department of Homeland Security's Oil & Gas Sector Coordination Council. He holds both bachelor's and master's degrees in political philosophy from the University of Dallas.

Topic of his Presentation:

"An insider's perspective of the Department of Homeland Security during Hurricanes Katrina and Rita."
