

Combating Terrorism at the Nevada Test Site

The Nevada Test Site (NTS) is designated as the National Center for Exercise Excellence by the Department of Homeland Security's Office for Domestic Preparedness. We prepare our nation's military and first responders for the war against terrorism by integrating realistic training, exercises, testing, evaluation, and technology for combating terrorism.

Training/Exercise Venues

- Simulated Urban Training Facilities
- Sensor Test Beds and "Smart" Buildings
- Toxic and Explosive Materials Training and Experimentation Environments
- WMD Exercise Areas
- Industrial and Transportation Security Test Beds and Training Areas

WMD Response Exercise Areas

Terrorist Attack Response Training

Our Capabilities

- Training/Exercise Services
 - Real-world WMD response and HazMat mitigation training
 - Services at NTS or off-site via mobile training teams
 - Integration of multi-disciplines and agencies
- Radiological/Nuclear Emergency Crisis/Consequence Management
- Military Unit Readiness
- Advanced Counter Terrorism Technologies
- Applied Technology Laboratories

Explosions and Simulated Chemical Releases

Courses Offered

- WMD Radiological/Nuclear Awareness
- WMD Responder Operations
- WMD Exercise Development
- WMD Radiological/Nuclear Response for Hazmat Technicians
- National Guard WMD-Civil Support Team Training and Exercises – individual team design
- USMC Chemical Biological Incident Response Force Exercises – specialized technical focus
- SWAT and Other Specialty Team Training
