ANNUAL LAW ENFORCEMENT & SECURITY MANAGEMENT SEMINAR

A training forum presenting **two** different tracts for presentation to our members.

Monday, November 6 through 7, 2006 Hazardous Waste Operations and Emergency Response (HAZWOPER) for Security.

HAZWOPER for Security Personnel is a 16 hour course for personnel with security duties within the energy industry. The objective of this training is for personnel to have a greater understanding of hazardous materials and environments as well as the equipment used to protect and respond to these emergencies. With this training, security personnel will have the additional knowledge necessary to assist with the response to an emergency, while maintaining the appropriate level of security at their facility. The student will receive an Operations Level Certificate for the course time
