

ASIS Intl. Houston Chapter CPP Review Course
March 9, 16, 23, 30, 2010 - 6-9 PM
MD Anderson South Campus Research Facility

The ASIS International Houston Chapter is proud to announce another round of CPP review courses for its membership. As always, these sessions are at no cost to Houston Chapter members. As in previous session, they will be hosted at the MD Anderson South Campus Research Facility (SCRB) located at 7435 Fannin. The sessions will occur in three hour increments on Tuesday evenings, beginning March 9th, and continuing on March 16th, 23rd, and 30th. Sessions will start at 6:00 PM and run to 9:00 PM each evening. Two domains per evening will be reviewed, with a complete review of all eight domains by the evening of March 30, 2010.

Houston Certifications Committee Chair David Cribbs is soliciting assistance from established CPP's in the instruction of the eight domains. If you are at CPP interested in obtaining continuing education points to support your certification and you would like to instruct a session, please contact David at dpcribbs@earthlink.net, or (832) 618-9341.

A special thanks goes out to MD Anderson for once again providing an excellent venue for the continuing education efforts of our membership. We hope to see you there!
